

Process & Decision Documentation

Project/Assignment Decisions

Use this section to document key decisions that shape the direction, scope, or outcome of the assignment. The purpose is to make your judgement and reasoning visible, not to record every action taken.

What you include here should reflect decisions that mattered: moments where you chose one path over another, changed direction, or adapted to constraints.

The expected length and detail depend on the assignment.

For this project, one of the main decisions that I made during the course of the project was to ask questions to the instructional staff regarding the process of installing VSC and GitHub Desktop onto my personal laptop.

GenAI Documentation

No GenAI was used for this task.
